<b>MD registration number</b>	3731/R	
<b>Medical device class</b>	IIb	
<b>CE mark</b>	CE 0546	

GOT Multi C<sub>2</sub>F<sub>6</sub> is pure hexafluoroethane, 75 ml, packaged in aluminium cylinder, intended for long-term replacement of the vitreous humour extracted during vitreoretinal surgery. Product can be used until cylinder content is consumed or as a single use product by those who favour disposable products. Special 75 ml cylinder with multi-layer bag resists pressure variations, ensuring shipping by air without any problems or limitations. Package includes pre-assembled syringe with 0.2 µm sterilizing filter, 30G needle, and connectors.

**Ref.:** GOT 008-00

#### Contents:

- ▶ 1 cylinder of 75 ml pure gas
- ▶ 1 gas injection set made of
  - 1 50-ml polypropylene syringe,
  - 1 0.2 µm filter, 1 connector,
  - 1 30G needle
- ▶ 1 patient wristband with warnings
- ▶ 12 labels for product traceability
- ▶ 1 insert

**EAN 13 barcode:**

8021118000364
